Impacts to Traffic

Access for residents will be maintained to the immediate surrounding area for all modes of travel.

Drivers

Drivers can expect delays to travel times and are advised to take alternate routes during construction. Periods of single lane alternating traffic are expected during construction outside the hours of 3-6 pm. Detours are not expected. Emergency vehicles will be given unrestricted access. BC Transit buses will be prioritized through the site.

Cyclists

Although the full movement of cyclists will be accommodated through the work zone, cyclists are encouraged to access the Galloping Goose Regional Trail to avoid the intersection if possible.

Pedestrians and transit users

Access for pedestrians will be maintained through the work zone. For day-to-day impacts to transit service refer to [BC Transit - Customer Advisories](#).
