NOTICE OF LOW-LEVEL FLIGHTS

May 14th – July 26th, 2025

VARIOUS LOCATIONS

Please be advised that Talon Helicopters Ltd will be completing low-level flying over the Capital Regional District (CRD) on behalf of FortisBC and BC Hydro.

FortisBC

Flights will occur from May 14 to June 14, 2025, over various locations within the CRD. FortisBC has noted that these flyovers are part of their annual inspection of high-pressure transmission natural gas lines. The helicopters use LaSen's aerial LiDAR detection technology to inspect pipelines in order to detect any issues with FortisBC infrastructure.

If you have any questions or concerns regarding the above inspection work, please contact FortisBC at 1-888-224-2710 or visit www.fortisbc.com/communityupgrades.

See Page 2 for map of work zone.

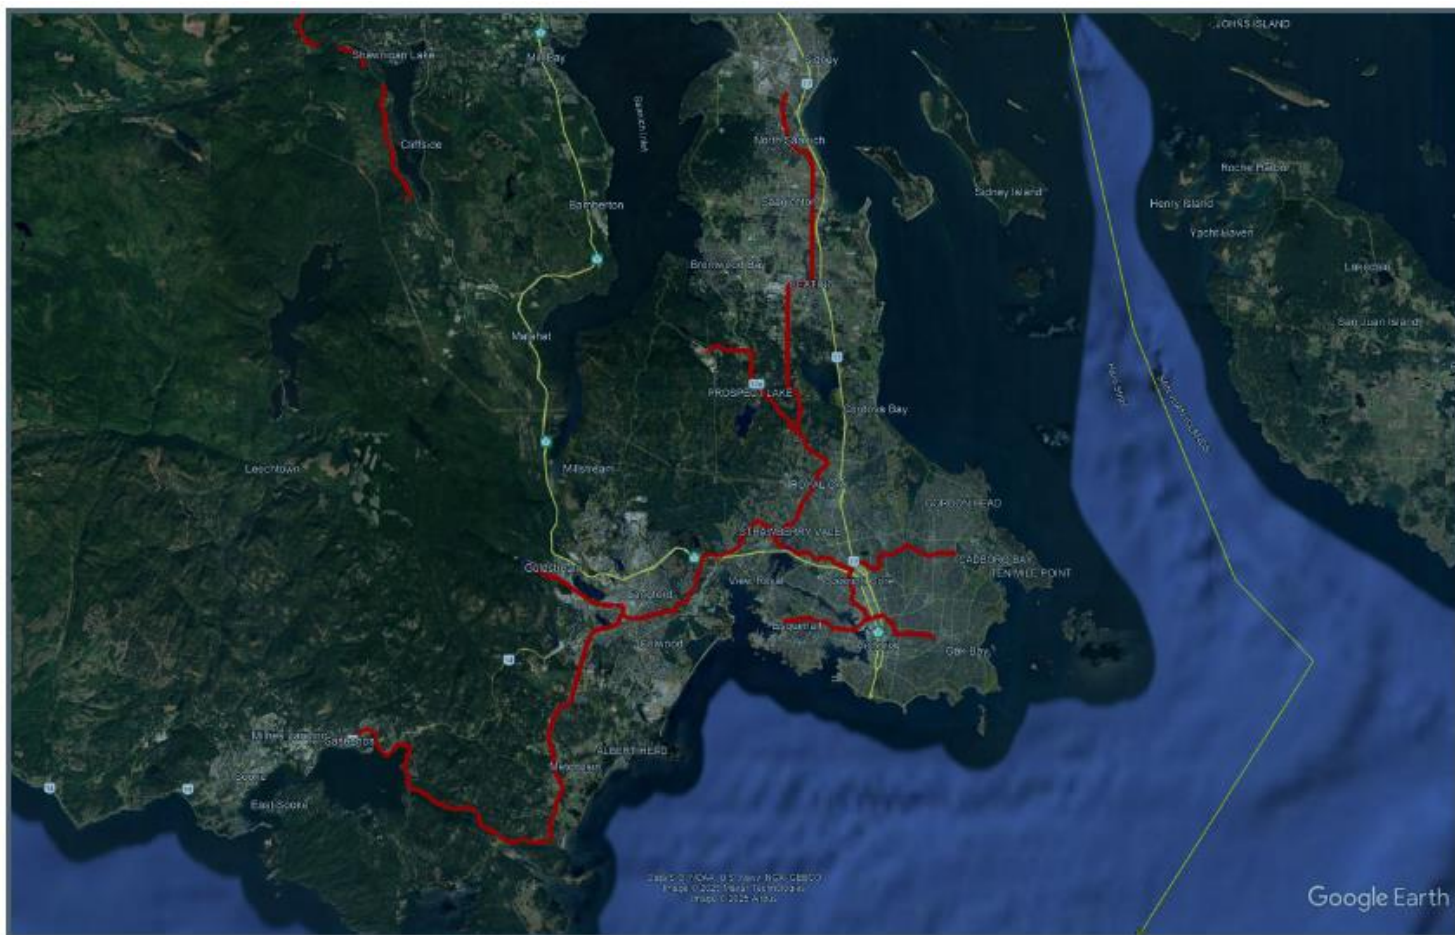

BC Hydro

Flights will occur from May 26 to July 26, 2025, during daylight hours, as authorized by Transport Canada.

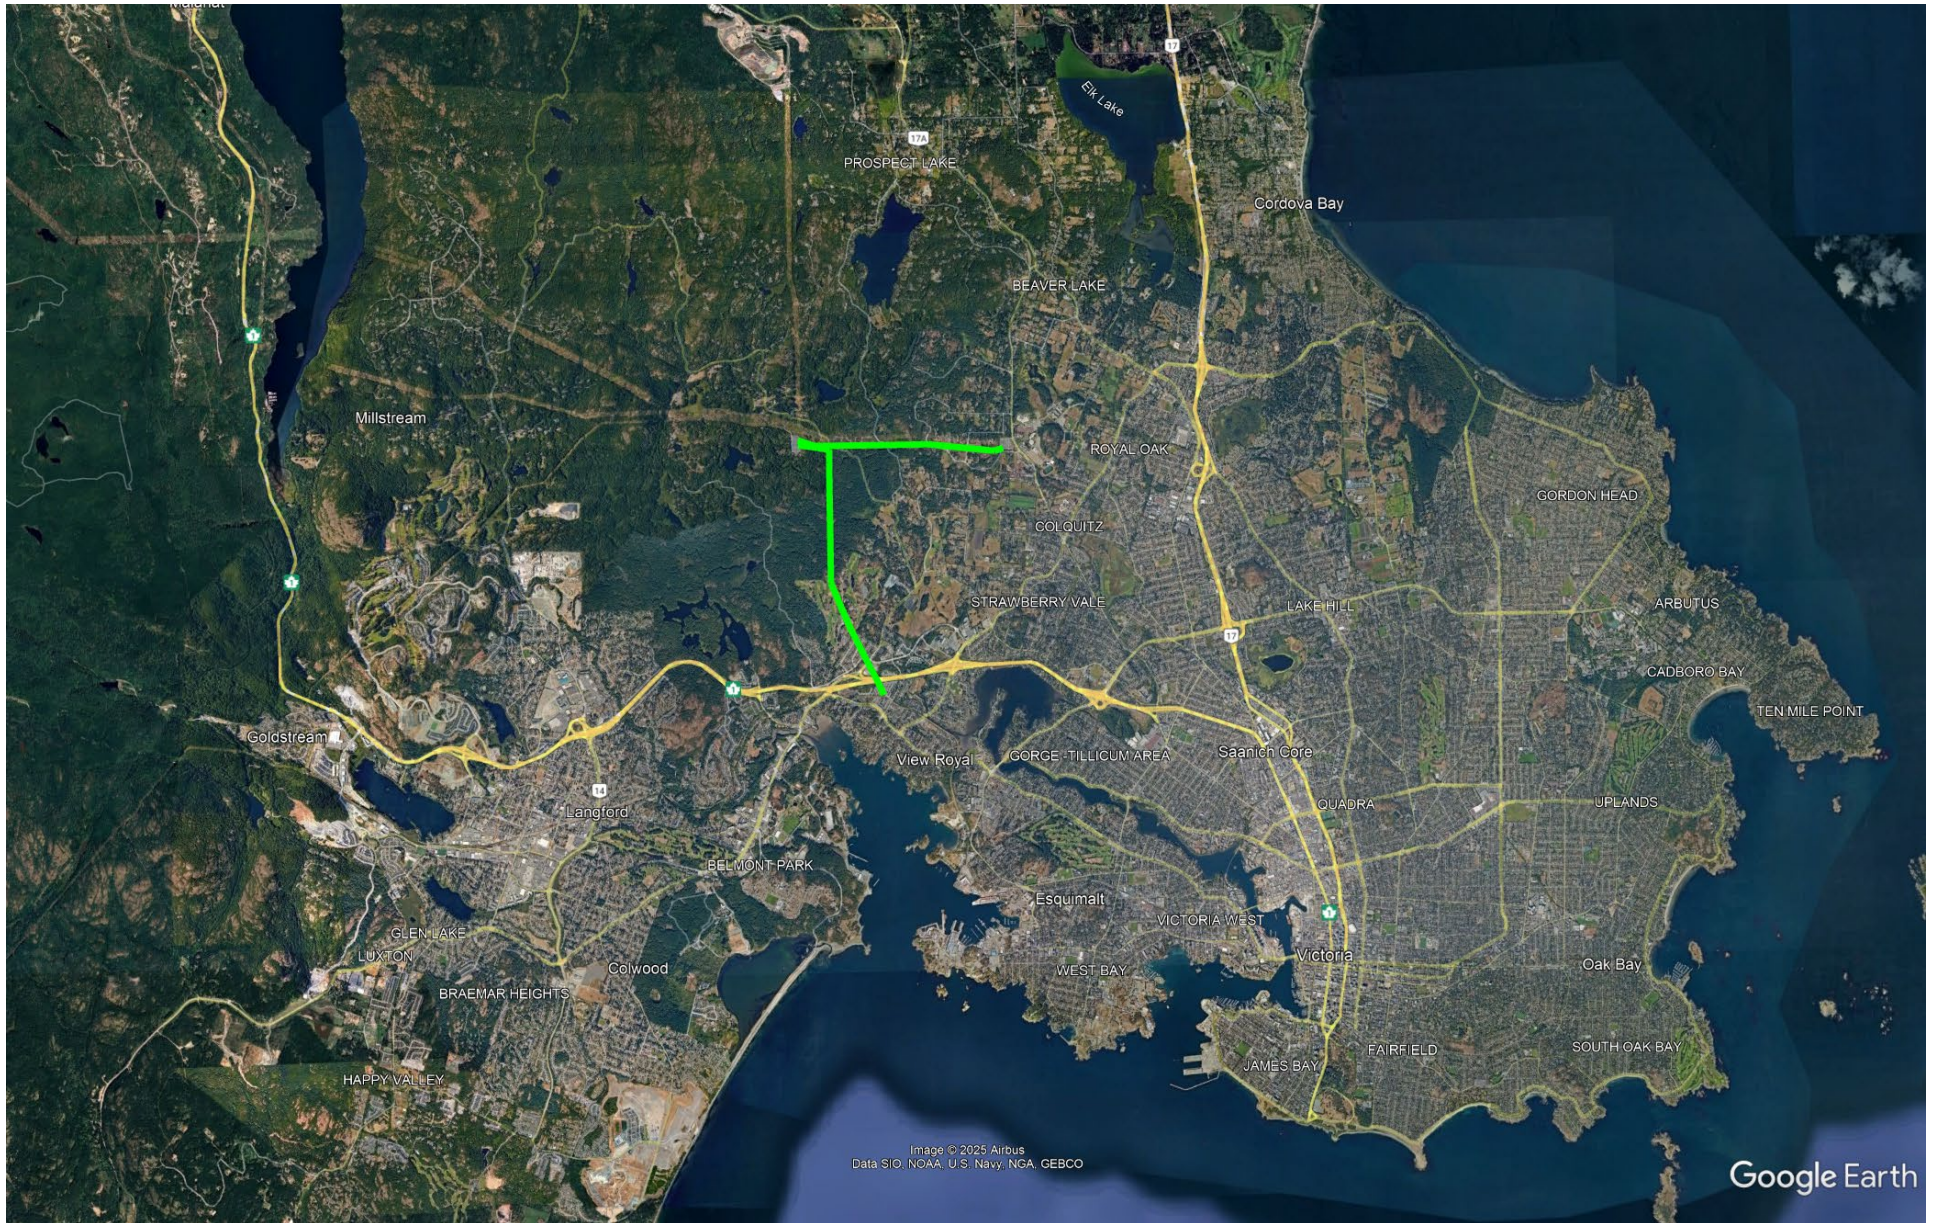

The Capital Regional District is one of 11 regional districts in BC and Alberta that we will pass through during this time – the flight time over a single area will be minimal. There will be no activity on the ground related to flights. The flight schedule may vary depending on weather conditions and wildfire activity.

For more information on this inspection work, call Talon Helicopters at 604-214-3585

See Page 3 for map of work zone.
