Traffic Delays Expected at Admirals and Craigflower Road Intersection

Victoria, BC – Between 6:30 pm on Monday, April 14th through to 5:30 am on Tuesday, April 15th the Capital Regional District Integrated Water Services team will be replacing a water main across the Admirals Road-Craigflower Road intersection. This will result in periodic interruption to traffic with potential alternating lanes on the Craigflower-Island Highway corridor and closure of the right-turn lane from Admirals Road onto Craigflower Road (heading into Victoria). Traffic controllers will be onsite for single lane, intermittent traffic flow. The Capital Regional District Integrated Water Services team advises to use alternate route if possible.
