

# 2015 - 2018

# VIEW ROYAL STRATEGIC PLAN

### **EXECUTIVE SUMMARY**

View Royal Council and senior staff have worked together to develop a strategic plan, setting the course for Council's term which completes in the fall of 2018.

The process included discussions between a consultant and the Chief Administrative Officer and Corporate Officer to develop a workshop and a pre-workshop survey for completion by Council and senior staff. This pre-workshop survey focused on the strengths, weaknesses, opportunities and threats facing the municipality. Survey results were shared at the outset of the workshop held in mid-February 2015.

Council spent significant time on three main themes at the workshop – fiscal sustainability, economic growth, and regional issues. Stemming from these themes, four key strategic priorities were identified.

These key strategic priorities are as follows:

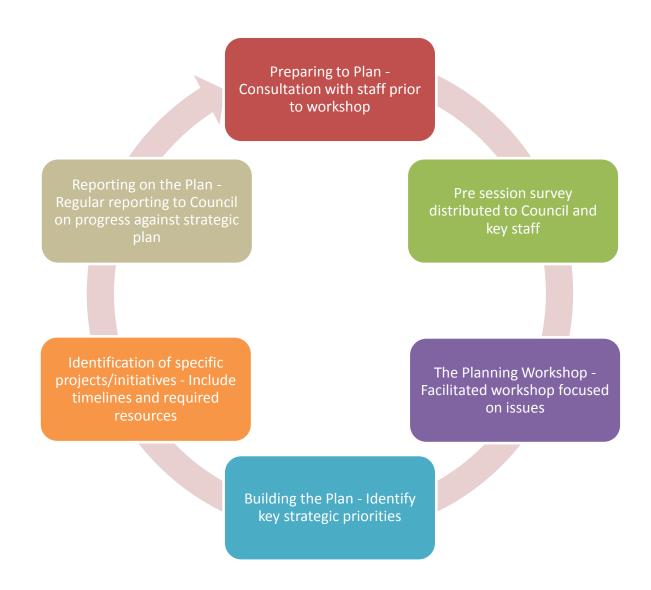

- 1. Financial Sustainability & Service Excellence
- 2. Enhance Liveability
- 3. Community & Economic Growth
- 4. Maintain Strong Relationships with our Neighbours

It is notable that the themes and resultant priorities align with current priorities and activities already underway pursuant to the previous Strategic Plan (2012 – 2014).

Identification of specific projects/initiatives, timelines, and required resources are provided for each of these key strategic priorities.

As is current practice, reporting on the strategic plan will occur quarterly during the term.
