Potential Bike Park in View Royal Park

The Town received a total of 435 responses to the survey with a 89.6% response of YES to having a bike park in View Royal Park. The clear choice of various bike park options presented in the survey was Option 1: Pump Track with the suggestion to incorporate a Bike Skills component as well.

Option 1: Pump Track - A continuous circuit of dirt rollers, berms and jumps that loops back on itself allowing you to ride continuously with little to no peddling. This option can be dirt or paved. Although the cost of initial construction of a paved pump track is significantly higher, it is a lot less maintenance intensive.

This fall, Council will make a final decision about the potential bike park. If Council chooses to proceed, preliminary design and construction of the bike park would begin shortly after.
