## Results of the View Royal Community Satisfaction & Engagement Survey

The Town of View Royal hired NRG Research Group (NRG) to carry out a statistically valid survey to seek input from citizens on Town services and priorities.

From February 11 to 24, 2019, NRG called between 400-500 View Royal homes by random digit dialing, including cellphone-only households. The survey included a wide range of topics including key issues facing the community; importance of and satisfaction with municipal services; and communication needs.

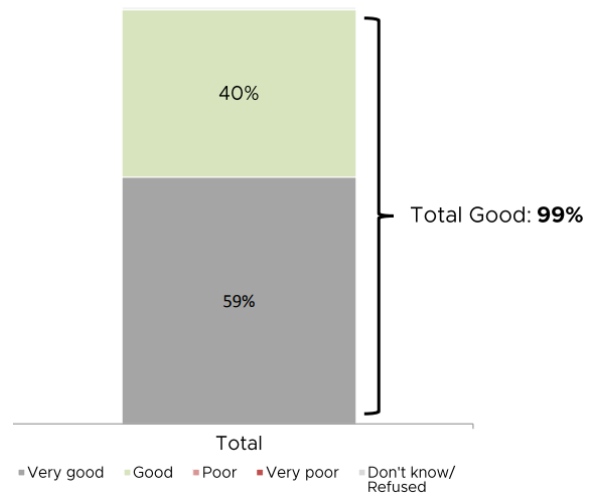

How would you rate the overall quality of life in the Town of View Royal today?

The survey is now complete! The results will be presented to Council at the Committee of the Whole meeting on March 12, 2019. A final report will be available in April 2019.
