Community Voices in Action: Update on View Royal 2050

Thank you to everyone who participated in the Community Growth Survey and other engagement activities as part of the View Royal 2050 Official Community Plan (OCP) update process. The project team is now reviewing all input gathered through the survey, social mapping tool, workshops, and open houses. This feedback will be used to inform the development of land use scenarios, which will guide future decisions on land use, housing, and density.

Looking ahead, the project team is preparing for the next engagement touchpoint. As part of this upcoming engagement, we will present land use scenarios that explore different ways View Royal could grow and change over time. We will also be sharing the draft vision and guiding principles to confirm with residents that we've "got it right." These materials will be available for review and feedback in May and June.
